

Built for sustainability

At Crestavilla, we are doing our part to ensure a healthier planet for our residents and for generations to come. We are committed to conserving natural resources, promoting clean energy and having a positive impact on the health of those who live and work in our communities.

That is why Crestavilla is pursuing LEED® certification through eco-friendly features and practices including:

16% Energy performance that exceeds California standards by 16 percent

High indoor air quality and comfort by using above-industry-standard air filters and systems

Construction using recyclable and recycled materials, with 75 percent of construction waste diverted from landfills

Underground parking and active rooftop that minimize heat absorption and reflection

Water use reduction by 20 percent and low water usage landscaping

Commitment to using 70 percent clean, renewable energy for day-to-day operations

Location within walking distance to transportation, services and entertainment

CRESTAVILLA
• AN ATRIA SIGNATURE RESIDENCE •

Atria Senior Living is a proud member
of the U.S. Green Building Council®

An application for residential care facility for the elderly is pending with the California Department of Social Services.
LEED® – an acronym for Leadership in Energy and Environmental Design™ – is a registered trademark of the U.S. Green Building Council and is the preeminent program for the design, construction, maintenance and operations of high-performance green buildings.
