

Creating a healthier planet FOR GENERATIONS TO COME.

At Crestavilla, we're working to serve our residents' great-great-great-grandchildren, too. That's why we are using solar power, recycled materials, an ozone-protective laundry system and other earth-friendly technology and design to help conserve natural resources.

The result? A positive impact on the health of residents and generations to come, and something more – LEED Gold® certification from the U.S. Green Building Council®, the preeminent sustainability ratings organization in the world.

CRESTAVILLA'S GREEN FEATURES INCLUDE:

-  High indoor air quality and comfort
-  Using recycled/recyclable materials to reduce landfill waste
-  Solar-powered roof panels
-  Underground parking and cool rooftop minimize heat absorption and reflection
-  Ozone-protective laundry system
-  20 percent reduction of water use
-  Using 70 percent clean, renewable energy

MODERN SENIOR LIVING & MEMORY CARE

LEED® – an acronym for Leadership in Energy and Environmental Design™ – is a registered trademark of the U.S. Green Building Council® and is the preeminent program for the design, construction, maintenance and operations of high-performance green buildings. The LEED certification trademark is owned by the U.S. Green Building Council and is used with permission.

As LEED® is the national standard for determining a building's sustainability, innovation and indoor environmental quality, we are proud to have earned this esteemed certification. We will continue promoting clean energy use to ensure a brighter tomorrow for our residents, family, friends and everyone who works in our community.
