

DE-ESCALATING TO POST COVID-19

De-escalation could result from either external factors (regional disease activity) OR internal factors (community disease exposure and completion of vaccine clinics).

Subject to regulatory guidelines.

	POST COVID-19	COVID WATCH	HIGH EXPOSURE MEASURES (HEMs)	FULL-BUILDING QUARANTINE
EXTERNAL FACTORS*	Community is in an area with less than 10 new daily cases per 100,000 people (7-day avg.) Local regulators have released COVID-19 restrictions	Community is in an area with 10-24 new daily cases per 100,000 people (7-day avg.) Local regulators have implemented COVID-19 restrictions	Community is in an area with 25+ new daily cases per 100,000 people (7-day avg.) Local regulators have implemented COVID-19 restrictions	Community is in an area with 100+ new daily cases per 100,000 people (7-day avg.) Local regulators have implemented COVID-19 restrictions
VACCINE	AND Community reaches 14 days after their second vaccine clinic and has achieved greater than 90% vaccination rates for both residents and employees	OR Community reaches 14 days after their second vaccine clinic	OR Community reaches 14 days after their second vaccine clinic	OR Community reaches 14 days after their second vaccine clinic
INTERNAL FACTORS†	AND Less than 2% of community population with active cases	AND More than 2% of the community population with active cases	AND More than 4% of the community population with active cases	AND More than 6% of the community population with active cases

* When triggered, escalating measures will be in place until 7-day average for new daily cases per 100,000 people stays below trigger point for at least 14 consecutive days.
† When triggered, escalating measures will be in place for up to 28 days following the last COVID-19 positive test or until testing indicates significant disease reduction.

The info below outlines the steps Atria is taking to keep residents as safe, active and connected as possible.

Subject to regulatory guidelines.

	POST COVID-19	COVID WATCH	HEM ESCALATION	FULL-BUILDING QUARANTINE
Minimizing Exposure	<ul style="list-style-type: none"> Persons under investigation (PUI) residents experiencing primary symptoms (fever, chills, new onset cough and shortness of breath) and/or having received positive COVID-19 test must self-quarantine with appropriate PUI signage clearly posted Staff providing services to PUI residents must wear appropriate personal protective equipment (PPE); see "Personal Protective Equipment (PPE)" section below 	<ul style="list-style-type: none"> Designated caregiver in place for all PUI residents experiencing primary symptoms (fever, chills, new onset cough and shortness of breath) and/or having received positive COVID-19 test Not Fully Vaccinated* Asymptomatic PUI residents must self-quarantine with appropriate PUI signage clearly posted 	<ul style="list-style-type: none"> Designated caregiver in place for all PUI residents experiencing primary symptoms (fever, chills, new onset cough and shortness of breath) and/or having received positive COVID-19 test; every reasonable effort should be made to avoid scheduling the same staff in both independent/assisted/supportive living and Life Guidance® Not Fully Vaccinated* Asymptomatic PUI residents must self-quarantine with appropriate PUI signage clearly posted 	<ul style="list-style-type: none"> Designated caregiver in place for all PUI residents experiencing primary symptoms (fever, chills, new onset cough and shortness of breath) and/or having received positive COVID-19 test; every reasonable effort should be made to avoid scheduling the same staff in both independent/assisted/supportive living and Life Guidance Not Fully Vaccinated* Asymptomatic PUI residents must self-quarantine with appropriate PUI signage clearly posted
Building Access	<ul style="list-style-type: none"> Access to the building open on all entrances including those staffed and accessible via designated keypad or key fob 	<ul style="list-style-type: none"> Access to the building restricted to only the main entrance, with exception of specific cases where additional entrances are staffed on a regular basis 	<ul style="list-style-type: none"> Access to the building restricted to only the main entrance, with exception of specific cases where additional entrances are staffed on a regular basis 	<ul style="list-style-type: none"> Access to the building restricted to only the main entrance
Resident Movement	<ul style="list-style-type: none"> Residents enjoy community common spaces and grounds without restrictions 	<ul style="list-style-type: none"> Congregation of residents in groups of 20 or fewer Face mask and social distancing required throughout the community 	<ul style="list-style-type: none"> Congregation of residents in groups of 5 or fewer; must wear a face mask and maintain social distance Elevators limited to 2 passengers at a time Residents are strongly discouraged from visiting public gathering spaces, including grocery stores not offering senior shopping hours, religious services not offering social distanced services, theaters, malls, casinos, etc., when visiting any public gathering space; residents are strongly encouraged to follow safety measures such as maintaining social distance, wearing a face mask and washing/sanitizing hands frequently 	<ul style="list-style-type: none"> Residents must remain in their apartments and are strongly discouraged from leaving except for scheduled medical appointments (except Life Guidance residents, for whom quarantine is not possible due to practical limitations) Elevators limited to 2 passengers at a time Residents are strongly discouraged from visiting public gathering spaces, including grocery stores not offering senior shopping hours, religious services not offering social distanced services, theaters, malls, casinos, etc., when visiting any public gathering space; residents are strongly encouraged to follow safety measures such as maintaining social distance, wearing a face mask and washing/sanitizing hands frequently Complimentary pet walking service provided

*Number of COVID-19 confirmed case exposures divided by the total number of independent and assisted/supportive living residents and staff in the community. The number of confirmed cases includes PUI residents who have been confirmed as COVID-19 positive as well as those who remain PUI and in the community, and the number of residents and staff who have been confirmed as COVID-19 positive for 14 days from the time they were physically in the community. Confirmed COVID-19 exposure calculation may be affected by testing.
†Fully vaccinated means that at least 14 days have passed since a person has received the second dose of a two-dose vaccine or one dose of a single-dose vaccine. Anyone not meeting this requirement is considered "not fully vaccinated."
‡New residents who tested positive for COVID-19 in the last 90 days may not be able to receive a negative test result, but they can move in if all of the following requirements are met:
1. At least 72 hours has passed since their last fever without the use of fever-reducing medication.
2. Symptoms (e.g., cough, shortness of breath) have improved.
3. The resident self-quarantines in their apartment for at least 10 days after move-in.
